

4 10 1995

Mr. Albrecht

I am very happy with the way that you are handling my case. I have been sending my wife child support in the amount of one hundred and twenty five dollars twice a month. Once on the first and then again on the fifteenth of the month. I will send the checks to you to send to her attorney to see if you cannot get more cooperation from her attorney. I will tell you outright that I was not happy with the attorney in California. It is a very small community in the California desert and he told me allot of things that I personally thought were incorrect. Specifically that I had no chance to get custody of my son because the mother is always awarded custody in the state of California. I was also told that pursuant to that he recommended to me that I go along with the temporary supervised visitation. His reasoning was that I will no longer be in the Marines in October the fourth of this year. I am pursuing employment with the Minnesota state highway patrol temporarily while I further my education. I will have a bachelor of arts degree in criminal justice in June of this year. Mr. Albrecht I will do anything to get custody of my son that you recommend. The attorney said after a couple of supervised visitations I would get regular visitation of my son. He also said that I should be paying my wife seven hundred and some odd dollars for alimony and child support. I am very happy with the attorney I have in Minnesota and I feel my best interests are being pursued.
